

***Work from Anywhere!***

Business VOIP and Unified Communications allow us to do business from any location having web access. The work force has moved to the web. Home-based workers account for a larger percentage of our work force every year. So why should you invest in a big office and lots of furniture? Instead of commuting to the office every day, let your staff work from home, full or part time. Reduce your office requirements and use ComCenters for the rest. We will make it easy!

It's time for your company to:

- Slash your office overhead.
- Raise productivity.
- Improve staff satisfaction.
- Connect better with your customers.
- And mobilize for the future, because it's already here!

Call today and see how we can save you 40% on your occupancy costs!

**When your business image matters... Turn  
to ComCenters**

**Virtual  
Workplace**

**[www.comcenters.net](http://www.comcenters.net)**

## *How much office space do you really need?*

Less than you think.

Work is what we do, not where we go!

Every day, more businesses are using technology and the internet to conduct daily business. Technology and internet are now available at home.

So why drive to the office and back, to do tasks that could easily be done at home?

Good people can perform anywhere.

## **Introducing, ComCenters' Virtual Workplace!**

Through "Teleworking" your employees can work from anywhere.

You'll reduce overhead costs.  
You'll make your staff happy.

## *Virtualize your Workplace!*

ComCenters has the tools to virtualize your Workplace.

- **ComCenters' IP Phone Network** enables you and your team members to work from anywhere, freeing all of you from the office. Your entire team is a four-digit extension away, anywhere across the web.
- **ComCenters' Enterprise Messaging** automatically forwards your voicemails, emails and faxes to your desktop, laptop or smart phone. Don't miss an important call or fax, no matter where you are.
- **ComCenters' Remote Connectivity** provides your company with a menu of networking plans so that your team members can have remote access. You control permissions. The team can work on company files, folders and applications from anywhere, at any time, as long as they have web access.
- **ComCenters' Audio, Web, and Video Conferencing** applications allow you to collaborate with team members and with customers from anywhere.
- **You can reduce the size of your office suite** with fewer offices and workstations. Team members could work at the office a few days and at home a few days. You can schedule regular company meetings so that everyone stays connected and focused on priorities. ComCenters has the team rooms and conference rooms to make this work. Manage by objective!

## *Virtual Workplace Features*

ComCenters' IT partners have several options to set up your company's Remote Connectivity. We can reconfigure your existing network to house your company applications and allow remote access or we can set up a new virtual server to host your applications. We will back it up every night and watch over it.

ComCenters' professional telesecretaries answer your telephone calls and forward the calls to your team members wherever they are. Our system forwards your emails, voicemails and faxes to PC desktops.

ComCenters' receptionists greet your visitors, offer fresh coffee and show them to our meeting rooms. You save on labor and space!

*Just think of the advantages.*

- Use less space. Lower your rent, CAM, utilities, janitorial service, etc.
- Reduce furniture and equipment purchases.
- Your staff can save on gas, commuting time, professional wardrobe and dry cleaning costs.
- Hire that great associates who lives out of state.
- Your team is always connected. Follow staff activities constantly!
